

Tasks:

1. Ask pupils to work in groups.
2. Give a plastic box to the first pupil of the group. The pupil must talk about their favourite animal.
3. After that, ask the pupil to pass the plastic box to other group members.
4. The plastic box is passed around the group until the last group member has talked about their favourite animal.

Example:

I like hamsters. They look like a mouse. Their fur is brown and white. Hamsters like to eat seeds and run on the wheels every day. They are cute and cuddly.
