Yesterday, Raj was left alone at home while his parents went to the clinic. Raj spotted a box of matchsticks. He remembered how his father used the

matches to light candles, so he decided to give it a try.

He struck the matchstick, and it burst into flame. He was excited and accidentally dropped the lit match on a cushion.

He panicked and immediately threw the cushion outside just in time his parents arrived. His father scolded him for playing with fire inside the house without supervision. Raj apologised and promised not to play with fire again.

Amisha loves cycling. Last weekend, she went out to cycle at the park. Her mother told her to wear a helmet and protective knee and elbow pads. Amisha didn't listen to her mother's advice and went anyway.

While she was cycling happily, Amisha accidentally crashed into a deep pothole. She lost her balance and fell off her bike. She hurt her knee and both elbows.

Amisha cried and remembered her mother's advice. If only she had listened to her mother and worn safety gear, the injuries could have been avoided.

Last Saturday was amazing! I went to Sumiran Eco Farm with my family. We did many activities at the farm, such as horse riding, wall climbing, kayaking, animal petting and flying fox. We spent the whole day doing activities together. The best part of the day was when I got to experience glamping. It was so much fun as the accommodation was luxurious and comfortable. I felt really happy and can't wait to visit Sumiran Eco Farm again soon.

Abu's father brought him to the dinosaur gallery room and showed him several replicas of dinosaurs. Abu was amazed by the size of the dinosaurs. He imagined what life would be like if dinosaurs still existed.

Later, they went to the art gallery, where the art curator excitedly explained to Abu and other visitors about each painting. Some paintings date back to the 18th century and were imported from overseas. Abu had a great time at the museum and expected a return visit anytime soon.

It was fun and full of adventures. Those water sports were dangerous, so we must put on our safety jackets at all time.

It is important to know a little bit about swimming too. I was happy to experience all these water sports and can't wait to participate in more.

My dream job is to become an actor. I have always been fascinated by acting since I was small. I followed my parents to the theatre to watch the latest plays. My favourite play is Mamma Mia, and I admired the actors' skills in acting, singing and dancing at the same time.

An actor's duties and responsibilities include reading scripts where they need to memorise and improvise their lines, researching characters, rehearsing scenes, singing or dancing, attending costume fittings and rehearsals and performing stunts. Besides that, actors need to take direction from the director on how to deliver their emotions effectively and improve their performance. Finally, when the actor has done all of the above, it is time to perform in shows. They are required to bring the character to life through their performances.

Actors work in theatres or in studios. They mustn't be afraid of performing in front of a live audience. In my opinion, actors are brave and creative. I hope I will achieve my ambition to become an actor.

Conclusion

Summary: parents and teachers – propose – solutions – children – mobile phones – school – without – distracting – safety

Mobile phones are a part of our daily lives. We use them to look up information, connect with family and friends, get the latest updates and current news and set our agenda on calendars so we will not forget them. Nowadays, schoolchildren are equipped with mobile phones because it is easier for parents to track their whereabouts and communicate with them. Therefore, should schoolchildren bring mobile phones to school?

There are many advantages and disadvantages of bringing mobile phones to school. Parents can keep track of their kids' safety, and kids can call their parents in case of emergencies. Mobile phones also enable school children to take notes, set reminders and store information efficiently through apps.

However, mobile phones can also distract schoolchildren in class, where they will pay more attention to social media, online games and chatting with friends. It may also cause a lack of sleep, eye strain and depression due to cases such as cyber-bullying.

In conclusion, parents and teachers need to propose solutions that allow schoolchildren to bring mobile phones to school without distracting them and ensure their safety.

B.

School uniforms are a good idea because it builds school spirit. This will reduce bullying cases in schools. It saves time in the morning and improves school safety because it's an appropriate dress rule.

Wearing uniforms improve the school's reputation. It can increase pupil's focus and identify truancy easily. Lastly, it ensures appropriate outfits.

or

School uniforms are not a good idea because of the costs. Uniforms can be expensive because you need to buy sports, formal and uniform bodies. There will be a lack of freedom of expression as pupils cannot dress however they want.

On top of that, parents will be affected as well, as they need to manage laundry routines on school days because their children do not have clean uniforms. It is also hard to find uniforms, especially for prefects and librarians, whose uniforms are different from others.

I went on a tour of a haunted castle in Scotland last month. I went there with my family. I was excited to go on the tour as I had been reading about ghost sightings in the castle.

It was the end of our tour, and I was disappointed that I hadn't encountered anything supernatural. While my family was in the souvenir shop, something caught my eye. I saw a figure in one of the rooms across the shop. I sneaked off to the room and was surprised to see an apparition of a woman. She was wearing an old Victorian black dress and a mourning veil. Her skin was pale. I was stunned.

Just when I was about to leave the room, the figure stared at me and disappeared into the wall. My father called me from outside, and I immediately ran towards him. I never told anybody about it. It was the scariest experience ever.

Subject	Brand New Smartwatch
<p>Dear Lukman,</p> <p>How are you? I heard that you are looking for a new smartwatch. I think you should buy the new Maxim 13 Pro because it has many great features such as GPS mode, weather forecast, health sensors and a face ID. The price is RM200 which is reasonable for a smartwatch. Besides that, you will receive a 10% discount when you purchase the smartwatch at GSmart Store. It also comes in two colours, which are blue and orange. What do you think?</p> <p>Sincerely, <i>Ruben</i></p>

Subject	Storytelling Competition
<p>Dear Krish,</p> <p>How are you? Did you see the storytelling competition poster on the school's bulletin board? I think we should participate in the competition since we both love to read. The winner will receive a stationery set and a novel by Sparrow Publications. Isn't it exciting? We can narrate any story with moral values. The competition is on the 14th of March and we need to collect the registration form from Puan Haniza before the 10th of March. Let me know what you think.</p> <p>Best regards, <i>Mawar</i></p>

Subject	Best Holiday Ever
<p>Dear Azlee,</p> <p>As you know, my family and I went to Japan last month. I was very excited to explore Japan. We went to see the Tokyo Tower, Shinjuku and the Senso-ji Temple. We also witnessed the cherry blossoms in their full bloom. I loved Japan because it was clean and beautiful. Also, the people were all polite. I'll tell you more next week.</p> <p>Your friend, <i>Husna</i></p>

Subject	Fire Drill Training
<p>Dear Zira,</p> <p>Hope you are well. On the 13th of May, our school will organise a fire drill training after recess. It will be conducted by the Department of Fire and Rescue, Hulu Langat. The fire drill will last around 10 to 20 minutes. We will learn how to evacuate safely, acknowledge evacuation exits and routes, and put off small fires using a fire extinguisher. The firemen will also teach us the basic fire safety equipment such as smoke detectors and fire alarms. I cannot wait to attend the fire drill training. Bye.</p> <p>Sincerely, <i>Theena</i></p>
